# SPRING 2021 WORKSHOPS

**02.27.21 | 11AM - 12PM**

## **Finding Public Datasets**

This workshop will focus on the process of finding public datasets. We will discuss where to look for publicly available datasets and how to get creative in your search process to find data that suits your research interests.

**03.27.21 | 11AM - 12PM**

## **Data Cleaning and Why it's important**

This workshop will focus on the process of data cleaning. We will review the process of preparing data for analysis by reviewing why it's essential to modify or remove incorrect, duplicated, incomplete, or improperly formatted data within a dataset.

**04.24.21 | 2PM - 3PM**

## **Interpreting Your Results**

This workshop will focus on the process of interpreting quantitative findings. We will review the output table for different statistical tests and learn how to report your result in APA style.
