

## Mathematics Teaching and Learning in the Remote or Socially Distant Classroom

**Audience:**

K-12 teachers, teacher leaders, and mathematics coaches

**Cost:**

**\$195** per person for component districts

**\$254** per person for all others

**PD Credit Hours:**

8 hours

**Dates for Offering:**

Synchronous Online Sessions:

January 14, 2021

January 21, 2021

February 4, 2021

4:00PM – 6:00PM

*There will be 2 hours of asynchronous work embedded throughout the duration of the course in addition to the synchronous session listed above.*

It is clear that regardless of the instructional model adopted by school districts, the learning environment is very different from what we are accustomed to. Whether teaching fully online, in-person with social distancing, or a hybrid of online and in-person, we must reimagine mathematics instruction. How can we maintain important aspects of mathematics learning in this new environment?

Technology affords us many possibilities, but how do we utilize technology to create opportunities for student engagement and collaboration in a remote or socially distant setting? This professional learning experience is designed to support teachers in remote and socially distant learning in mathematics.

Participants will engage in and reflect upon mathematics experiences utilizing both synchronous and asynchronous structures. Time and support for considering participants' unique contexts will be included during the sessions. Join us to learn about possibilities for mathematics instruction for the upcoming school year.

### Registration is now live through Wayne-Finger Lakes BOCES My Learning Plan Catalog

Please visit the following link to reserve your seat:
