<tr>
<td>1. a. Educational Problem: Student identifies an educational problem and articulates its significance. The comp question should prompt a literature review that analyzes other research, including relevant methodologies, which has investigated this problem and finds what remains to be investigated.</td>
<td>25 page paper</td>

</tr>
<tr>
<td>b. Theoretical Framework: This literature review should point to the theoretical framework, including relevant discussion of research methodologies, the student will likely use in the dissertation proposal by analyzing the frameworks that have been used to research the problem of focus.</td>
<td>25 page paper</td>
<td></td>

<tr>
<td>2. • A single paper of 40-50 pages that consists of a comprehensive analysis of the problem, theory, and methodology related to the student’s future dissertation research. The student will identify an educational problem and articulate its significance in the context of the research literature. A thorough discussion of the theoretical frameworks that have been used to investigate this problem is also expected. Discussion of relevant methodologies will also be needed to give context to the reviewed studies’ findings. The student should also clearly identify gaps in the literature that remain to be studied.</td>

Must be related to your dissertation. |
| 2. **Theoretical framework and research methodology**: The comp paper consists of a description of an action research project to be undertaken to address the educational problem, a critical analysis of how and why this constitutes action research and why action research is an appropriate methodology to address this problem, and an identification and discussion of the theoretical framework that informs this study.
