Regional Mathematics Leadership Cadre

The Center for Professional Development and Education Reform, in partnership with Wayne-Finger Lakes BOCES, is once again offering an opportunity for teachers, teacher leaders, math coaches, and administrators to come together to learn, share resources and ideas, and provide support to each other as we work to successfully implement high quality mathematics instruction for K-12 students. To embrace the shifts, challenges, and progress in mathematics education today, it is crucial that we, as a region, work in collaboration to best serve our school communities while staying at the forefront of the latest research. New and returning members will:

- come to a deeper understanding of the mathematics within the Common Core Learning Standards and prepare for the Next Generation Learning Standards as we explore the implications on teaching, learning and assessment;
- stay up to date with the latest information from the field at regional, state and national levels, tapping into regional and national expertise;
- collaborate with each other by sharing strategies and materials to support the implementation of high quality mathematics;
- engage in cross-grade level and cross-district collaboration;
- use current literature and research to inform our work, including a book study of NCTM’s Taking Action: Implementing Effective Mathematics Teaching Practices in Grades K-5/6-8/9-12 (participants will choose a grade band to personalize their professional learning experience);
- participate in experiences as learners in mathematics to develop new images of mathematics teaching and learning.

Join us for an opportunity to network with others in our region, to share our successes and ideas for improvement, and to share our experiences as we work to improve mathematics instruction for all.

Once registered you will receive an email to select your book. (Select one only)

- Grades K-5
- Grades 6-8
- Grades 9-12

Registration is now live through Wayne-Finger Lakes BOCES

MyLearningPlan Catalog

Please visit the following link to reserve your seat:
