Register Now!

Attendees will experience the Standards for Mathematical Practice and discuss the correlations to the CCSS during the workshop. All will have an opportunity to discuss implementation and management strategies for CMP3 with experienced CMP teachers and share ideas with colleagues.

About the Center

Housed within the Warner School of Education, the Center draws on the resources and knowledge of the entire University of Rochester connections and the community at large. We are a vibrant, intellectual community where individuals, organizations and institutions collaborate on educational challenges to make the world an even better place.
